

Newsy Notes from Third Grade

Testing

The state testing has been completed. Most students put forth a good effort. I felt that many found it very tiring sitting in one place for 45 to 60 minutes. Now we wait for the results that come to us around the end of January. I thought the questions were appropriate, and the children had to use quality-thinking skills.

Halloween

Next Friday, our annual parade will take place at 2pm. The class will be having a shortened PE class until 1:35pm. If you want to help with costume changing, come in around 1:40ish. Mrs. Roakes will be calling a few of you this weekend, asking for goodies for our gathering after the parade. We, as a school, are promoting healthy snacks and treats. So please, no goodie bags, cupcakes, or sweets. I will be talking with the class this next week about their costume. With our walk downtown, they need to be able to see clearly and walk with ease.

Keeping with eating healthy, please be sure that the Halloween candy doesn't come in for snack after Halloween.

The Bog

Next Tuesday we are off to the bog unless it is raining. Sally Cornwell will be our guide while we walk on the bog. Remember they need to dress in layers with clothes that might get a little muddy. Help your child to select a snack that day that is simple to eat. May I also suggest a plastic bag to sit on during snack.

Habitat

We will finish our study of the forest habitat next week. The class wrote some poems about the forest this past week. Next week we will do an ABC page for a habitat book that we'll be making. Next, we will be studying about the grassland habitat.

Fire Prevention

Next Tuesday the Wolfeboro Fire Dept. will be presenting fire safety at our school. I hope you child will be sharing with you what they learned about lights and whistles.

Have a great weekend!

N. Metz
