

Music Near You

by Samantha Sainsbury

In New Hampshire, we have so many radio stations that people listen to and enjoy. Some really popular kinds of music are country and hip-hop.

The country stations that are popular in NH are: 98.7 FM, 93.3 FM, 97.5 FM, and 103.7 FM. In Kingswood, most students listen to 103.7 FM for country music. "Country music has a better way of telling people what's on their minds," Shawna Moore explains.

Other students listen to 94.1 FM and 97.9 FM when listening to hip-hop/rock. "I love music, because it expresses the words we're afraid to speak," says Sarah Westfall.

Many Kingswood students listen to 94.1 FM when they can. "94.1 FM is my favorite station but it comes in so bad when I'm in the car, and at home," explains Shawna Moore.

Most people polled for this article said that 97.9 FM comes in the best in the car and at home. 94.1 FM doesn't come in very well no matter where they are.
